"ABOUT SEX is the best film I have seen concerning the human and practical aspects of sexuality . . . addressed to a youthful audience . . .

It has a delicate blend of the beauty, humor and earnestness that characterize young people . . . "

> Jane M. Johnson, Coordinator Young People's Program Planned Parenthood of New York City

"All in all, I would label ABOUT SEX 'about perfect' . . . It's exactly what we've been waiting for." Hariette Surovell Students Coalition for Relevant Sex Education

# The Family in Social Context Second Edition

This revised second edition combines rigorous scholarship and readability in analyzing the contemporary American family from a range of viewpoints. The breadth of perspective permits the most recent developments-women's liberation, communal living experiments, and other alternative life styles-to be seen in their larger significance

rather than as short-run phenomena.

# MARRIAGE AND FAMILY INTERACTION, Third Edition

By Robert R. Bell, Temple University

The Third Edition of this highly successful functional text for marriage and family courses has been expanded and updated to include pertinent new research conducted since publication of the previous edition. Well organized and comprehensive, the new edition features such additions as the introduction of relevant statistics from the Masters and Johnson study, two separate chapters on the world of those previously married and their movement back into marriage, and a new discussion of materials related to changes in premarital behavior. An almost entirely new chapter on women examines in part the development and significance of the women's liberation movement. Also included is expanded discussion of birth control with "the pill" controversy and other recent findings explained in depth. A Manual of

## PARENTS IN MODERN AMERICA: A Sociological Analysis

## By E. E. LeMasters, University of Wisconsin

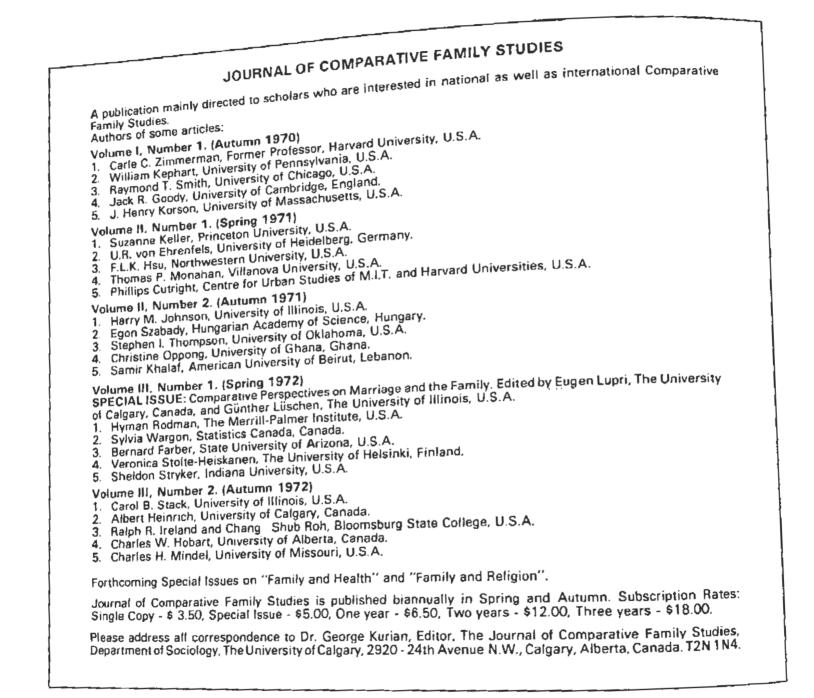

Unusual in that it focuses on the role of the parents rather than the child, this book offers a sociological approach to the parenthood role and parents' attempts to perform in the social system. Concepts such as role, social class, and social change are used extensively in this analysis. This valuable supplementary text is also unique in that it analyzes socio-economic factors affecting parents and gives attention to the American father who has been ignored in much of the literature on parents.

## Now that your students are talking about the alternatives to marriage, wouldn't you like them to know what they're talking about?

INTIMATE LIFE-STYLES: MARRIAGE AND ITS ALTERNATIVES

edited by Joann S. DeLora and Jack R. DeLora both of *San Diego State College* 

This book analyzes traditional forms of courtship and marriage in the United States along with emerging patterns of interaction involving intimacy and sex. Included in the latter are categories such as living together, swinging, homosexual relationships, communes, and the singles scene. The structure of these various life styles is presented and analyzed from a perspective of social change with emphasis upon future developments.

To cover this broad spectrum, material has been gathered from professional journals (Journal of Marriage and the Family, American Journal of Sociology, and Transaction) as well as sources from the underground press, popular magazines, literary journals, women's liberation publications and others dealing with current issues affecting the family (Playboy, Berkeley Tribe, Redbook and Look).

# Life is a Soap Opera and Your Students are The Players

Sounds gruesome. But it's true. All those sudsy programs deal with living problems that your students may have to face. Maybe today, maybe tomorrow, maybe 10 years from now. The question is: Are they ready for it? Birth, death, marriage, choosing not to marry, divorce, having parents, being parents. The loves, hates, frictions, griefs, aggravations, fears, joys of life. You can't give them an invisible shield, but you can give them the means to understand and cope with life's problems.

For your Human Relations course choose:

Relationships: A Study in Human Behavior (Helen Gum Westlake) and Behind Every Face (Arthur and Xenia F. Fane)

### SURVIVAL IN MARRIAGE

## Introduction to Family Interaction, Conflicts, and Alternatives By Gail Putney Fullerton, California State University, San Jose

Designed for the functionally-oriented course in marriage and the family, this text focuses on the problems of individual survival in marriage and on the broader question of the viability of marriage as an institution in our mass society. Professor Fullerton analyzes the effect of the myth of romantic love on maritat adjustment, the constructive uses of marital conflict, the social and emotional strains on interracial marriage, and the emotional pitfalls built into post-maritat roles. Textual material is illustrated with numerous case studies, interviews, and photographs. 1972 / 460 pages / \$9.95 / Instructor's Manual

#### THE FAMILY SYSTEM IN AMERICA

By Ira L. Reiss, University of Minnesota

Sociological in its orientation, this textbook investigates current American family patterns, analyzing how the family system operates in human society. The author's approach is strongly interdisciplinary, utilizing materials from anthropology and history to show the American family in the dual perspective of its past nature and its counterparts in other societies. Research studies document and amplify the explanation, yet the style of the book remains informal and easy to understand. 1971 / 512 pages / \$10.00

## READINGS ON THE FAMILY SYSTEM

#### Edited by Ira L. Reiss

Presenting a wide-ranging view of the family, this collection of artrcles deals with cross-cultural perspectives, various aspects of courtship, marital and family relationships, and the relevance of the family to present-day trends in women's liberation, black equality, population pressure, and deviant behavior. The vast majority of selections were published since 1965 and they cover all the key sub-areas ordinarily included in a family course. Consequently, this anthology can be used to supplement any standard text or collection of books.

1972 / 608 pages / \$7.95 paper

#### THE MODERN FAMILY Third Edition By Robert F. Winch, Northwestern University

As in previous editions, this book presents a general theory of the family and utilizes this theory in an analysis of family life in the United States. The general theory of the family is both sociological and socio-psychological and the deleminants of its structure and functions form the focus of sociological analysis Such considerations lead into the concepts and principles of general sociology and to a view of the family as a social system 1971 / 672 pages / \$9.95

## ANNOUNCING A NEW LOWERED PRICE OF \$6 95 ON:

## SELECTED STUDIES IN MARRIAGE AND THE FAMILY

Edited by Robert F. Winch and Louis Wolf Goodman, both of Northwestern University

The readings in this Third Edition illustrate two fundamental approaches to the study of marriage and the famity: structural-functional and developmental. Every chapter includes introductory material by the editors relating each selection to other articles in the chapter and each chapter to the format of the entire volume. Where possible, the editors have retained the full significance of each selection by presenting the whole article. Two-thirds of the selections are new to this edition. 1968 / 640 pages / \$6.95

## FUNDAMENTALS OF HUMAN SEXUALITY

## By Herant Katchadourian and Donald T. Lunde, bolh at Stanford University Medical School

This new text provides a truly comprehensive factual, and up-todate survey of ideas and information relating to the many facets of human soxuality. The approaches to the subject are from three different perspectives: biological, psychological, and cultural. The first part of the book is a thorough coverage of material on anatomy and physiology, and differing from most texts on the subject, it contains an abundance of socially significant date. The second section combines statistical data with clinical material in an interesting discussion of the varieties of sexual experence. Provided in the balance of the book is a scholarly discussion of eroticism in art, literature, and film. Two very important chapters discuss sex and the law and sexual morality. Quality illustrations. 1972 / 512 pages / \$9 95 paper.

#### PERSPECTIVES ON SEXUALITY

#### Edited by James L. Malfetti, Teachers College, Columbia University, and Elizabeth M. Eidlitz

Perspectives on Sexuality is a collection of approximately 200 selections drawn from novels, short stories, plays, poems, popular songs, essays, advertisements, graphic media, and scholarty articles. Its primary objective is to widen the perspectives from which sex, love, and decisions relating to them may be viewed and examined. The focus is on humanistic perspectives, especially as they appear as central themes in hierature containing profound expressions of the subjective meaning of sex 1972 / 528 pages / \$8.00 paper

# Only a few things should not be improved.

William M. Kephart's THE FAMILY. SOCIETY, AND THE INDIVIDUAL has been the best-selling textbook in its field since its initial appearance in 1961 — used at more than 500 colleges and universities.

But in order to maintain that "Number One" status, we've subsequently had to publish two major revisions, incorporating in each the findings of current research, while retaining the individual-societal approach that has made it one of the definitive textbooks in the social sciences.

Among the important and timely improvements in this new edition of the Kephart text are: • a completely new chapter on the American Negro family • a new chapter on premarital sex codes

a distillation of the pertinent findings of the Masters and Johnson studies on marital sex edjustment
the latest figures on the skyrocketing American divorce rate
a discussion of the legal aspects of marriage and divorce that reflects the most recent changes in family law
an enlarged discussion of experimental family organization.
