LETTER OF WELCOME TO ATTENDEES AT NCFR ANNUAL CONFERENCE, 1989

Brent C. Miller

As Program Chairperson, I welcome you to this NCFR Annual Conference. The program committee, with help from many others, has worked long hours to prepare this conference, and I sincerely hope that you will find people, information, and contacts here that are valuable to you.

The core of this NCFR program, as always, consists of literally hundreds of presentations by your peers. In addition, please take advantage of the plenary sessions, distinguished lectures, and other special activities.

I realize that there is a lot in New Orleans to distract you from these meetings. Consequently, this year we deliberately scheduled the sessions to begin a little later in the day, and Tuesday night was left open for competing attractions. I hope that you enjoy yourselves and benefit from these meetings.

Best Wishes,

Brent C. Miller, Program Vice President

INTRODUCTION TO NCFR PROGRAM

Welcome to the 51st Annual NCFR Conference!

We want to make this an exciting conference for you intellectually, professionally, and personally. Brent Miller and his Program Committee have assembled an impressive array of workshops, talks, and plenary speakers on the theme of **Families and Sexuality**. I also want to commend them on the important theme they selected which has so many important implications for families today.

David Olson

To give NCFR and the family more visibility in our society and at the legislative level, I have commissioned a project entitled **2001: Preparing Families for the Future**. I have appointed a **Presidential Task Force** of 15 past presidents and 5 additional family scholars to prepare this report which will be available at the meeting. On Sunday afternoon, there will be a **Presidential Panel** discussing this report. In addition, my **Presidential Address** will highlight some of these salient findings on Monday afternoon.

During this past year, I also launched a **Strategic Planning Committee** to be co-chaired by M. Janice Hogan (incoming President) and Lynda Walters (President-Elect). The NCFR Board and Committee will be meeting throughout the convention to initiate this project which will then be implemented the following year. Please let your elected Board Members know of your ideas for making NCFR a more vital and successful organization.

Enjoy the conference and New Orleans!

Explore the issues that the AIDS epidemic raises for families and family professionals!

AIDS and Families

Edited by Eleanor Macklin, PhD

Associate Professor and Director, Marriage and Family Therapy Program, College for Human Development, Syracuse University, Syracuse, New York

Here is one of the only volumes to explore the issues that the AIDS epidemic raises for families and family professionals who work with them. Noted family scientists, AIDS specialists, and senior staff members of many related professional organizations have combined their expertise in this vital new book to address family and community concerns about the disease, to offer guidelines for educating families and society, and to propose valuable recommendations for effective service delivery and public policy.

(A monograph published simultaneously as *Marriage & Family Review*, Vol. 13, Nos. 1/2.)

RAVE REVIEWS!

"AN INVALUABLE reference for health professionals, policy-makers, and an informed public. The text is logical, practical, frank, and well-written. Although materials an AIDS often become dated quickly, this book will not. Family professionals will find this book a unique resource and in reading should continually reflect on their personal, professional, and social responsibilities vis-a-vis AIDS."

— Catherine L. Gilliss, DNSc, RN, Assistant Professor, Department of Family Health Care, School of Nursing, University of California, San Francisco, California

"THE ESSENTIAL BOOK on AIDS for family professionals. It brings together the latest medical, epidemiological, and psychosocial information in a highly readable form. Furthermore, it pushes the AIDS field to consider the relationship context of AIDS."
