## National Family Week, 1989 and 1990

*By the President of the United States of America*

### A Proclamation

As individuals, we find in our families a sense of identity, purpose, and security. As a Nation, we find in our families the vision and strength we need to remain a truly free and just society.

A family is more than a group of individuals related by blood, marriage, or adoption - a family is a community of persons united by their love and their commitment to one another. It is through family life that our Nation's most cherished values and traditions are passed from one generation to the next. Through our experience as members of a family, we learn important lessons about love and faith, duty and fidelity, personal responsibility and concern for others. Because those lessons are conveyed to the community at large, and because the family gives us a model of human relationships after which all other social institutions are fashioned, the strength and integrity of the family are vital to our well-being as a Nation.

Over the years, the family has withstood every assault upon it. It has endured in societies where rulers have sought to subject individuals to the collectivism of the state, and it has survived more subtle attempts to distort or belittle its value as an institution. As one expert on public policy and the family has so eloquently expressed it, "It is as if the family, as the fundamental reality of human society, is the small but stubborn rock that breaks the ideologues' plow of abstractions about human nature."

While the family is the most resilient and enduring of all human institutions, it needs protection and encouragement. Today, our Nation is confronted by problems that are, in large part, consequences of the breakdown of the traditional family. Drug abuse, child abuse, domestic violence, illegitimacy, teen pregnancy, and poverty cost the United States billions of dollars each year in social programs alone. But the waste in dollars pales before the most tragic loss - the waste of human spirit and potential.

As a Nation, we must remain committed to policies and programs that recognize and reinforce the family as the primary source of love and support that every individual needs. We must ensure that our families enjoy the benefits of economic opportunity and political representation, and we must recognize that parents have primary authority in the education of their children. American families need and deserve a cultural and legal framework that encourages and supports stable marriages and family life.

In the inimitable shelter of home and family, we learn how to give and receive love. There we discover the inestimable worth and unalienable rights God has granted each of us; and there we discover the responsibilities we have toward others. Thus, the integrity of the family is essential to our ability to remain a strong and stable Nation. During National Family Week, we renew our determination to strengthen and support the American family. Our children's future, and the future of the United States, depend on it.

The Congress, by Senate Joint Resolution 117 (Public Law 101-111), has designated the week of November 19 through November 25, 1989, and the week of November 18 through November 24, 1990, as "National Family Week" and has authorized and requested the President to issue a proclamation in observance of these weeks.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim the weeks of November 19, 1989, and November 18, 1990, as National Family Week. I invite the Governors of the several States, the chief officials of local governments, and the people of the United States to observe this week with appropriate ceremonies and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-first day of November, in the year of our Lord nineteen hundred and eighty-nine, and of the Independence of the United States of America the two hundred and fourteenth.

*George Bush*

## PLAN NOW FOR FUTURE NCFR CONFERENCES

**1991 - November 15-20, Radisson Hotel  
Denver, Colorado**

**Theme: *"Families and Poverty"***

Program Vice President  
**Alexis J. Walker**  
Oregon State University

Poverty is one of the most pressing social concerns in the world today. Approximately 13.5% of the population in the United States is in poverty, including 1 or every 5 children. While, on the average, family income has risen in recent years, the number of people in poverty has risen as well, particularly among African and Hispanic Americans. Additionally, women and children are more likely to be in poverty than men and adults. By focusing on "families and poverty" the program planning committee hopes to encourage presentations on research, policy analysis, evaluation, and innovative programming related to issues such as: "the connections between divorce and poverty; the government's role; immigration; relation between poverty and health; and poverty across the lifespan.

The Call for Papers and Application Form is a part of this printed program (see back pages). Additional copies will be placed in the Conference Registration Packets. Non-members who wish to submit a proposal may write to the Conference Coordinator at NCFR headquarters for a copy of the form and instructions.

**Deadline for Abstract Applications - February 1, 1991**

**1992 - November 1-5, Clarion Plaza Hotel, Orlando, Florida**

Program Vice President: **Patricia Voydanoff, University of Dayton, OH**

**1993 - November 6-11, Hyatt Regency Hotel, Baltimore, Maryland**

# Marriage & Family Texts from Wadsworth: Choices for a Changing World

## New in 1990-1991

### **MARRIAGES AND FAMILIES: MAKING CHOICES AND FACING CHANGE Fourth Edition**

by Mary Ann Lamanna,  
University of Nebraska  
and Agnes Riedmann

In this new edition, Lamanna and Riedmann take the theme of making choices one step further by showing how societal and economic constraints add a new dimension to decision making. Includes major updating of statistics, research, and data and new material on dating, courtship, the feminization of poverty, race and ethnicity, positive communication techniques, single parenting, daycare, and family violence.

### **MARRIAGE AND THE FAMILY Third Edition**

by Marcia Lasswell, California State  
Polytechnic University  
and Thomas Lasswell,  
University of Southern California

The Lasswells speak directly to your students in this personal and pragmatic overview of marriage and the family. They combine a sociological/psychological perspective to balance their presentation of the dynamics of intimate relationships. In addition to presenting key theories, research and data the authors include numerous counseling applications as well as practical "how to" examples. New to this edition, a section on dating and mate selection, major updating, especially on AIDS and contraceptives, and more cross-cultural examples.

### **ILLUSION AND DISILLUSION: THE SELF IN LOVE AND MARRIAGE**

#### **Fourth Edition**

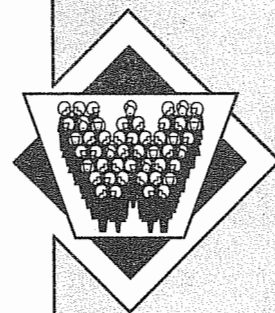

by John F. Crosby,  
University of Kentucky

A refreshing alternative to standard marriage and family texts, Crosby's book gives students a realistic, down-to-earth overview of the basic theories and practical realities of marriage. Set within a family systems framework, individual dynamics are presented in terms of interactions both within one's family of origin and one's present relationship. Includes a new chapter on divorce, remarriage, and stepfamilies and many new case studies and vignettes.

### **THE BLACK FAMILY: ESSAYS AND STUDIES Fourth Edition**

by Robert Staples, University of  
California, San Francisco

This widely respected anthology is in a class of its own—providing students with the key research and readings needed for a solid background in Black family sociology. Viewing the Black family as a system affected by larger societal and structural conditions, Staples emphasizes political and economic issues that may influence Black family life. Over half of the articles in this revision are new and include topics such as family violence, gay/lesbian issues, women in history, substance abuse and AIDS.

## **'ARE THOSE KIDS YOURS?'**

### **American Families with Children Adopted from Other Countries**

Cheri Register

The question "Are those kids yours?" has a familiar ring to parents with adopted children from South Korea, India, Colombia, and other countries. In stories drawn from her own experience as the mother of two Korean-born daughters and from interviews with other parents and with adopted children, Cheri Register both affirms the normality of internationally adoptive families and highlights the special challenges they do indeed face. The book addresses many central questions about international adoption: why children are in need of adoption outside the country of their birth, why parents choose to adopt from other countries, how parents and children of different origins become a "real" family, how parents explain the cultural circumstances of their children's births, how families foster ethnic identity, how they deal with racism, and how living as a multi-cultural family affects their view of the world.

## **CHILD CARE CHOICES Balancing the Needs of Children, Families, and Society**

Edward F. Zigler, Yale University and  
Mary E. Lang

Today, more than two-thirds of American mothers work outside their homes, while their children are cared for by others, often in environments that compromise their cognitive and social development. This book is the long-awaited definitive anatomy of the American child-care system—a patchwork construction at best—that has become increasingly inadequate to meet the needs of society. Putting what has succeeded and what has failed into broad historical perspective, Zigler and Lang explain what children of different ages—and their families—need, and what kinds of child care programs are necessary in light of current social and economic realities.

Now you can find out how, with Norm Wright's new book *Always Daddy's Girl*.

*Always Daddy's Girl* explains the dynamics of the father-daughter relationship. It's a topic Norm Wright, author of the best-seller *Communication: Key to Your Marriage* knows a lot about—not only because of his years of helping others as a marriage and family counselor, but also because he has a daughter of his own. So he knows how influential a father can be in a daughter's emotional life.

Your father was the first man in your life. And you'll never forget him. But now you can begin to understand him and how he affected you—with Norm Wright's help in *Always Daddy's Girl*.

"We highly recommend *Always Daddy's Girl*."

—Gary Smalley and John Trent, Ph.D.

# 53RD ANNUAL CONFERENCE CALL FOR PAPERS

## NATIONAL COUNCIL ON FAMILY RELATIONS

### THEME: FAMILIES AND POVERTY

NOVEMBER 15-20, 1991

RADISSON HOTEL  
DENVER, COLORADO

Applications must be postmarked by February 1, 1991 and mailed to the NCFR office  
3989 Central Ave. NE, Suite 550, Minneapolis MN 55421.

#### I. GENERAL INFORMATION

Approximately 13.5% of the population in the United States is in poverty today, including 1 of every 5 children, making poverty one of our most pressing social concerns.

While, on the average, family income has risen in recent years, the number of people in poverty has risen as well, particularly among African and Hispanic Americans. Additionally, women and children are more likely to be in poverty than men and adults.

The theme of "families and poverty" is a particularly appropriate topic for family scholars in the 1990s. By focusing on "families and poverty" we hope to encourage the report of research, program evaluation, policy analysis, and innovative programming related to such issues as:

- ♦ the connection between divorce and poverty
- ♦ government's role in poverty issues
- ♦ the connection between immigration and poverty
- ♦ the relation between poverty and health
- ♦ the influence of poverty across the lifespan

Abstracts on topics outside of the theme but related to families are welcome.

All proposals for the program must be submitted on the enclosed Application and Abstract Forms. Those which are COMPLETED PROPERLY and **POSTMARKED BY FEBRUARY 1, 1991** will be considered for presentation at the conference.

The annual conference of the National Council on Family Relations is a scientific and educational meeting, providing a forum for professionals in many fields to present their research and discuss ideas for implementation and programming. Information and registration forms for the conference will be mailed to program participants in April. Housing forms will be included in the complete conference program which will be mailed in August to all National Council on Family Relations members and non-members whose abstracts have been accepted for presentation.

**PLEASE READ ALL INSTRUCTIONS AND FOLLOW THEM CAREFULLY TO ENSURE THAT YOUR ABSTRACT CAN BE CONSIDERED.**

#### II. PRESENTATION FORMATS

The conference program includes two forms of public presentation: presentations through a poster format; and symposia. **BOTH PRESENTATIONS ARE OF EQUAL PROFESSIONAL VALUE.**

##### 1. PRESENTATIONS

The presentation is a **display presentation**. It consists of an exhibit of material that you as the author personally attend for an assigned period of time (usually 1.5 hours). This format allows presenters to discuss their work in-depth directly with attendees. The display reports applied and basic research or practice results summarized in graphic form: tables, graphs, pictures, and text. The exhibit provides a unique platform for your work that facilitates personal discussion with interested colleagues in your own and related areas of research and professional practice. Presenters are required to bring copies of their written report for distribution.

Display presentations will be grouped with related work. Abstracts of presentations will be numbered and listed in the program. Your display board number will correspond with the number of your presentation in the program.

##### 2. SYMPOSIA

A symposium involves presentations by 3-5 individuals and at least 1 discussant on a topic of major importance to the field of family studies. The presentation is organized by a chair (or co-chairs) who is responsible for submitting the abstract for peer review. The chair leads the discussion and integrates the papers as they relate to each other and the topic.

### III. GENERAL RULES FOR ALL PARTICIPANTS

The program is organized around invited lectures, symposia, and presentations that have been reviewed by one of the 10 NCFR sections designated on your application form: *Education and Enrichment, Ethnic Minorities, Family Action, Family and Health, Family Discipline, Family Therapy, Feminism and Family Studies, International, Religion and Family Life, and Research and Theory*. When you submit an abstract, apply to one of these sections.

By late April 1991, letters will be mailed to the first author or organizer regarding the status of each submission. If accepted, the first author or organizer will be notified of the day, date, and time period for presentation, and a conference registration form will be enclosed. NCFR reserves the right to reschedule presentations if necessary to resolve presenter conflicts in the program. The final schedule will be printed in the conference program mailed in August 1991.

Your application, if accepted, commits you to be present and to participate at the conference.

#### 1. WHO MAY APPLY

NCFR members and potential members who are professionals or students involved in research, education, policy, therapy, and family-related services may apply.

Participation as first-author in all presentations is limited to one application per person. The first author is considered the presenter.

#### 2. HOW TO APPLY

A. Complete the Application Form.

B. Complete the short Abstract Form. This abstract must be typed according to specifications on the form, as it will be reproduced in the Conference Program. If retyping is required, the first author will be billed \$15.

C. Complete an expanded summary. Expanded summaries are required for review purposes.

1) Presentations have 750 word summaries (3 typed pages) plus tables or figures defining problem, methods, results, and conclusion or implications.

2) Symposia have 1,000 word summaries (4 typed pages). Elaborate on purpose, goals, synthesis of component papers, and conclusion or application to practice.

3) All submissions must include at the end of the abstract a boldface list of 3 descriptive key words from the subject code listings on page 68.

Send three (3) copies of the application and short abstract form, and five (5) copies of the expanded summary to the Conference Coordinator.

### 3. CRITERIA FOR SUBMISSIONS

Abstracts should be factual and report on completed research. Criteria for evaluation of abstracts include originality of idea, appropriateness of methods, concise presentation of methods and findings, clarity of theoretical and/or applied implications, and quality of writing. A list of topics to be covered or a statement that "results will be discussed" is insufficient. Materials previously published or presented at another national conference are not acceptable.

### 4. ATTENDANCE AND REGISTRATION

All persons attending and presenting at the Annual Conference are required to register and pay the registration fee by June 15, 1991. This includes authors, co-authors, session chairs, and all those connected with symposia.

## EXAMPLES OF ABSTRACT FORMATS

### Sample Presentation Abstract

**THE IMPACT OF VACATION LENGTH ON MARITAL QUALITY.** Leonarda Vagnoni, Alessandro L. Guadagno, and Maria L. Vincolo, Dept. of Fam. Studies, Florence Col., Tarentum, PA 15084.

We tested a prediction derived from social exchange theory that increased interaction time leads to lower marital quality. A random sample of married women ( $n = 150$ ) and men ( $n = 120$ ) in a theme park ride line in the SE U.S. completed questionnaires. Marital quality was measured by the short form of the Spanier Dyadic Adjustment Scale (DAS). Vacation length was the number of consecutive days both respondents and spouses were off from paid work including the day of assessment. The data were analyzed with ordinary least squares regression. After controlling for marriage duration and number and ages of children, gender and vacation length predicted a significant portion of the variance in DAS scores. Vacation length predicted 49.3% and gender 10.4% of the variance in marital quality. Women and individuals with longer joint vacations reported lower marital quality than men and persons with shorter joint vacations. Results support

the thesis that greater time in interaction leads to poorer marital quality. We suggest educational and service programs designed to help married couples avoid and/or resolve conflicts and disagreements during vacations. Supported by the National Institute of Relationships.

### Sample Symposium Abstract

**FACTORS RELATED TO HUSBAND'S PARTICIPATION IN FAMILY WORK.** Alexa Kazaros, Dept. of Human Dev., Moondance Col., Tucson, AZ 85741.

#### Participants:

Ashley Elizabeth (Fam. Studies, U of El Paso, El Paso, TX 79999) Wives' Labor Force Participation and Number and Ages of Children as Predictors of Husbands' Family Work.

Sonya Kazaros (Hum. Dev., Moondance Col., Tucson, AZ 85741) Attitudes of Husbands and Wives as Predictors of Husbands' Family Work.

Jared Thomas (Fam. Studies, U of El Paso, El Paso, TX 79999) Spouses' Shift Work and the Number and Ages of Children as Predictors of Husbands' Family Work.

Bernard Patrick (Fam. Sci., State U of PA, Creighton, PA 15000) The Role of Wives' Income and Occupational Status in Husbands' Participation in Family Work.

Discussant: Chico Kazaros (Hum. Dev., Moondance Col., Tucson, AZ 85741)

In the past 30 years, wives have increased participation in the paid labor force such that over 50% of married women, including half of all mothers with infants, are now employed at least part time. This increase in paid work has been accompanied by a decrease in the amount of time women spend in unpaid family work; i.e., housework and child care. It has not, however, resulted in a concomitant increase in the time spent by husbands in family work. This symposium reviews the literature on husbands' participation in family work paying particular attention to that group of men who have been responsive to the labor force participation of their wives. We focus on the unique characteristics of these men and their wives, demonstrating that men become major participants in family work in two ways: (a) a combination of factors such as shift work and the presence of many preschool-aged children compel the involvement of husbands; and (b) the feeling among wives that family work should be shared leads them to insist that their husbands participate. We emphasize the willingness of women to accept the status quo as well as the need for new models of husbands' family-work participation.

The National Council on Family Relations expresses its thanks to the Gerontological Society of America for giving permission to use its Call for Papers as a model for the 1991 NCFR Call.
