

Welcome to the 2009 NCFR Conference

Objectives of the NCFR Annual Conference

- To provide a forum to disseminate family research
- To share effective and evidence-based practice applications for direct family service
- To promote the CFLE credential and its educational and preventive approach to working with families
- To discuss policy implications of family research and how to inform decision-makers
- To promote the professional development of its membership, through participation in NCFR governance and by offering opportunities for continuing education units (CEUs) for credentialing

The NCFR Mission

To provide an educational forum for family researchers, educators, and practitioners to share in the development and dissemination of knowledge about families and family relationships, establish professional standards, and work to promote family well-being.

2009 Conference Theme:

"Families in a Multicultural World"

The international character of San Francisco, the site for the 2009 NCFR Conference, will afford an exciting context for examining how diversity issues affect family scholarship, practice, policy and education and how each of us might contribute to better understanding of the heterogeneity, as well as the commonalities of diverse families, not only in the United States, but also around the globe.

This theme encourages comparative work on a variety of family topics, with particular attention to cross-cultural and international contributions to these matters. The hope is that scholars, educators and practitioners might share their varying perspectives on topics of concern to us all.

NCFR thanks the following sponsors for their contributions to the 2009 Annual Conference

Wiley-Blackwell Publishing (President's Reception)

Professor Hilary Rose (Children of the Camps and TCRM Preconference Events)

Center For Urban Families (Hospitality Room and Lounge Area)

Fairway Divorce (Hospitality Room and Lounge Area)

Johnson Printing (program booklet)

Thyme, Inc (health/beauty aids)

2009 Proposal Reviewers

One of the strengths of the NCFR Annual Conference is the Concurrent Sessions sponsored by sections. Proposals are blind reviewed by three peer reviewers from the section to which the proposal was submitted. The reviewers' role is key to ensuring that conference presentations are of the highest quality for a rich, rewarding, and stimulating conference experience.

Why I attend the NCFR Annual Conference

Every year I eagerly anticipate attending the NCFR Annual Conference; I wouldn't miss it! No matter what the theme, I find sessions of great interest, I am invigorated by the latest research, I am motivated by the application and practice presentations, and I glean innovative pedagogical ideas to implement in my classroom. Just as importantly, I look forward to seeing people who I care about and meeting new professionals who share my passion for families.

TCRM SPECIAL WORKSHOP

Constructing Social Theory

9am-12:30pm, Bayside Room A/B

Leader: **David Bell**. Separate registration required, \$30; you may register in person on Tuesday, Nov. 10.

Every theory consists of both a description of some causal logic (the theoretical orientation) and an application of that logic to some class of empirical situations (the theory itself). This workshop will show ways to make this distinction so as to heighten the clarity of theory discourse. Using Bell's *Constructing Social Theory*, the workshop will examine a sample of theoretical logics (in particular, exchange, power, and connection logics). The workshop will also present pedagogical suggestions for teaching theory construction.

Why I attend the NCFR Annual Conference

Over the years, participating in the NCFR annual conference has provided me with a blueprint to achieve my professional

goals. Mentored in the organization by my major professor, I was eager to become part of NCFR and strengthen my skills as a family professional. Serving as a leader at the state affiliate level—and being part of the first Texas cohort to earn Family Life Educator certification—inspired me to serve at the national level. *Maxine Hammonds-Smith, Ph.D., CFLE, NCFR President*

Religion and Families

8:15-9:45am, Grand Peninsula Ballroom A

Diversity, Religion, and Pedagogy

Mary Ann Hollinger, Ed.D.

Mary Ann Hollinger, Director of International Programs and Partnerships at Gordon-Conwell Theological Seminary, will describe how social scientists have long been ambivalent, even wary, about incorporating religion into their teaching and research agendas. As a result, the influence of various world religions on the lives of families, communities and nations is often either trivialized or ignored altogether. This presentation will consider the benefit of infusing religious themes throughout the family science curriculum. It will begin with a brief overview of tensions and competing views of religion in the American academy. This will be followed by an illustrated discussion of religion as a theoretical paradigm, research variable, unit of analysis and curricular component.

How Faith Works and Why Religion Matters to Diverse Religious Couples and Families

Building Bridges to Support Military and Veteran Families: A Multi-Agency, Civilian/Military Collaborative Approach

**CDR Brenda L. Gearhart, Division Chief, Outreach Clearinghouse, Outreach and Advocacy Directorate
Defense Centers of Excellence for Psychological Health and Traumatic Brain Injury (DCoE).**

Multiple deployments to Iraq and Afghanistan, and the expanded role of the National Guard and Reserve in these conflicts have placed great stress on families and communities. As military and veteran families transition to different systems of care and move to new communities, care and support often becomes fragmented. Communities want to help but often are unfamiliar with military culture and systems, and may be unsure how to reach out to the military installations and Guard and Reserve Units to offer support. This presentation will describe a multi-agency, civilian/military collaborative group, "Building Bridges," whose goals are to develop networks for information-sharing, initiate joint planning efforts, and increase the capacity of communities to support military and veteran families.

Brenda Gearhart is a licensed clinical social worker with 11 years of military experience, both as an enlisted service member and as an officer, and has served as a U.S. Public Health Service (USPHS) Officer since 2002. CDR Gearhart has worked at DCoE since July 2008 and facilitates the multi-agency, multi-service group.

Emotion Focused Family Therapy

Gail Palmer, MSW, RMFT

Emotionally Focused Family Therapy (EFFT) is a model of intervention that helps build strong and cohesive families from the inside out, according to presenter Gail Palmer, MSW, RMFT. The EFFT approach uses new insights from attachment theory to understand distressed and satisfying relationships within a family. Palmer has worked closely with EFFT co-creator Sue Johnson and has trained therapists across Canada and the United States. She is a founding member of the Ottawa Couple and Family Institute and a family therapy professor in the School of Social Work at Carleton University, Ottawa.

In this Saturday special session, Palmer will review relevant research, discuss family distress from an attachment perspective, and identify EFFT stages including key change events and clinical interventions. The workshop that follows (3:15-6:45pm) will focus more closely on the core skills and tasks in therapeutic practice, corresponding interventions, change events that foster a secure bond between family members, and interventions to help families re-process negative affect and restructure negative interactions.

72nd Annual Conference
November 3-6, 2010

Pre-Conference
Workshops,
Tuesday, November 2

Minneapolis Hilton and Towers • Minneapolis, Minnesota

The Twin Cities offers you everything you could want in culture, scenery, shopping, history, and sightseeing.

2010 Conference Theme

Families and Innovation

Program Chair: Ramona Faith Oswald, University of Illinois-Champaign/Urbana

Innovation is the creation of new objects or ideas—it is the process by which people introduce, re-think, adapt, surprise, generate, transform, and otherwise move some part of the world in a new direction. Innovation brings attention to human agency and creativity, and the importance of recognizing our capacity to think, act, and react beyond “the norm” or what is expected.

The 2010 National Council on Family Relations annual conference theme is **Families and Innovation**. Plenary sessions will highlight new research on family issues that push against conventional ideas and/or illustrate the gaps between what we know and what we could know if we did things differently. The intention behind this theme is to invigorate the work of family researchers, teachers, policy makers, and practitioners by creating a forum for intellectually rigorous exploration, conversation, and debate.
